

**EPA****POTENTIAL HAZARDOUS WASTE SITE IDENTIFICATION**REGION
III

SITE NUMBER

**ORIGINAL
(Red)**

NOTE: The initial identification of a potential site or incident should not be interpreted as a finding of illegal activity or confirmation that an actual health or environmental threat exists. All identified sites will be assessed under the EPA's Hazardous Waste Site Enforcement and Response System to determine if a hazardous waste problem actually exists.

I. SITE DESCRIPTION

The site is an active welding supply company. Hampton Roads Welders Supply and Linde Union Carbide are located on site. The property is approximately five to six acres in size and is entirely fenced. One building on site is used for offices and storage.

J. HOW IDENTIFIED (i.e., citizen's complaints, OSHA citations, etc.)

Elizabeth River Study

NS007

K. DATE IDENTIFIED

(month, day, & year)

July 26, 1990

L. SUMMARY OF POTENTIAL OR KNOWN PROBLEM

In 1937, aerial photography identified two large vertical tanks near an industrial area. In 1949, 1954, and 1958, there was no change. In 1964, the tanks were no longer visible. In 1985, a raised, bermed impoundment containing light-toned material and a pipeline source were located on site. Tanks located at the southern and eastern ends of the property were observed during a visual inspection.
